

Zeeco Blast Gate Valves

Zeeco

- Stainless steel push rod
- Plated cast packing gland
- Cast from WCB cast steel preventing cracking and becoming brittle
- Electro galvanized components for corrosion protection (except sliding surfaces)
- Zeeco manufacturers and stocks blast gate valves in a variety of sizes from 2" to 16"

Others

- Carbon steel rods that can corrode and freeze valve operation
- Brass-packing gland not allowed in some applications
- Cast iron which is less ductile
